PERSONAL PROJECTS

Institution website (07/2021 - Present)
- I am working on site of organisation named GDF. I have been working on this project for 1 month still I am trying to make it better. For this Project the technologies which I am using are following.
- 1. React JS
- 2 . Next JS
- 3. Tailwind CSS
- 4 . Dicebear (for creating random avatar)
- 5. Next-auth (for authentication)
- 6. Mongodb

Mern dev (portfolio website) (06/2021 - 07/2021)
- This was just my side project. It's not my portfolio site. I have built it just for the shake of knowledge and learning new stuff.
- For this project I have used following technologies :-
- 1. Bcrypt (For the encryption of the password)
- 2 . ejs (template language)
- 3. Express Js
- 4. Mongoose
- 5. Passport js (For the authentication)

Facebook clone app (11/2021 - Present)
- I have started this is project just to learn frontend framework
- (material ui) and there is no other reason for the doing this project.
- For this the technologies which I am using are following :-
- 1. Next js
- 2. React js
- 3. Material ui
